Introducing DMC

DMC Healthcare is a national provider of clinically-led health services to the NHS. Our values are rooted in the positive care Dr Gupta committed to providing to his patients in the GP practice he set up in 1967.

50 years later, our focus remains on replicating that very simple ethos.

Our shared mission is to **deliver healthier outcomes**, for our patients, our own team, and for our commissioners. We aim to demonstrate on a day-to-day basis our values through our actions and our words.

Our core values

Functional

Pioneering, clinically-led, bespoke, can-do

Comparative

Family-led, long heritage of NHS delivery, patient care before profit, cost-effective

Emotional

People-centred, responsive and responsible, trustworthy, credible

Delivering Healthier Outcomes

Community Services

DMC Community Services delivers a wide range of consultant-led and consultant-delivered services to the NHS. All consultants are supported by the latest digital technology.

We are seeking a consultant dermatologist to join our multi-disciplinary team at our newly procured dermatology and minor surgery service in Fulham, south west London.

The role

- Purpose:
 - To deliver healthier outcomes for patients registered in Fulham
- Role and responsibilities:
 - Working closely with our dermatology clinical lead, Dr Tony Downs FRCP, you will be supported by two GPwSIs, and nursing and administrative teams.
 - Typically, you will be treating:
 - Stable plaque psoriasis, guttate psoriasis and psoriasis of the palm and soles
 - Premalignant skin lesions such as solar keratoses or Bowen's disease
 - Low risk BCCs on trunks and limbs
 - Acne conditions requiring isotretinoin (roaccutane)
 - Diagnosis, investigation or management of other chronic rashes in adults unless diagnostic doubt
 - Diagnosis, investigation or management of mild/moderate/non-worrying dermatoses and skin lesion in children unless diagnostic doubt
 - Pigmented lesions
 - Conditions of hair, scalp and nails

Work with us, and we'll make it work for you

1. Clinical leadership and supervision, and support from nursing and administrative teams

2. Indemnity cover, GMC revalidation and appraisal

3. Flexibility, diverse work scope, excellent earning potential

Thank you

Thank you for your interest in DMC Healthcare – a team of more than 250 professionals committed to delivering healthier outcomes for people across the country. [To apply or for more information, please contact Sabina 020 7635 1029](#)
